OPERATIONS

The Indian economic growth rate has slowed down for the past couple of years and recovery is still some time away. The complex world of global economics and its volatility have affected India's growth also.

The manufacturing sector has been the worst affected and the capital goods market has been hit the hardest. High fiscal deficit, high inflation, a volatile currency and the political environment have all contributed to uncertainty in the economy which in turn has caused the Company's revenue to drop for the year 2013-14.

The net revenue of your company for the year ended under review was Rs. 5,099 Million against Rs. 5,488 Million of last year. The revenue of the compression segment was Rs. 4,159 Million as against Rs. 4,484 Million in 2012-13.

The compression segment was affected mainly due to very low investments in the Oil and Gas sector. Capital expenditure for expansion/up-gradation of refineries was also very low and this affected our business of Refrigeration and Gas Compression Systems. The CNG business was affected due to various infrastructural and gas availability issues. Our thrust into the export business has resulted in your Company booking the first export order for a CNG system.

The revenue of the Transmission segment was Rs. 679 Million as against Rs. 1,005 Million in 2012-13. The Transmission segment was affected mainly due to stagnation of growth and high stock levels in the Indian Railways. The wind turbine market also went down substantially due to lack of clarity in Government policies.

During the year under review, your company has successfully completed the Emergency Brake Distance Test (EBD) of one RoadRailer Rake which is a pre-requisite for the running of this train. Your Company is now awaiting the final certification from the concerned Railway authorities.

Cost reduction measures and the WoW (war on waste) initiative helped your company to generally maintain its profitability for the year under review despite a severe downturn in the economy.

ENERGY CONSERVATION

Within the Company there are continuous efforts to improve operational efficiencies and minimizing consumption of natural resources. Your Company actively makes efforts to increase awareness about the need to sustain the environment and constantly evaluates new initiatives that could reduce waste and emissions within the Company.

As a result of this even though there is a substantial rise in power tariff and oil prices, we have been able to contain our costs.

DIVIDEND

The Board of Directors have recommended a dividend of Rs. 10/- (100 %) per equity share for the year ended March 31, 2014. In the last year a dividend of Rs.12/- (120%) per equity share was paid.

FIXED DEPOSIT

As of March 31, 2014 there are no Fixed Deposits outstanding nor unclaimed.

PROSPECTS

Your Company believes that the economic potential of the country may remain subdued for this year too. With the new Government in place it is hoped that the year 2015-16 will see a boost in investments in sectors that your Company is involved in. The uncertain political climate has led to many projects in the Oil and Gas sector being postponed or dropped. This has impacted the revenue of the Compression segment in 2013-14. It is expected that some of these projects in the Oil and Gas sector will be cleared for implementation in 2014-15 which will help your Companies' revenue from 2015-16 onwards. Our drive for exports of hydro carbon based refrigeration systems and gas compression systems has resulted in your Company receiving some export orders and we expect to take this initiative forward in this year too.

With the Government of India reintroducing generation based incentive and launching of a new initiative to double the production of renewable energy by 2017, (upto 55000 MW) opportunities in the Transmission division should grow in the year 2015-16.

After receipt of the EBD certificate from the Railway Authorities and after setting up the terminals near Delhi and Chennai, your Company has a plan to manufacture and sell one more RoadRailer Rake this year.

DIRECTORS

Mr. Sanjay C. Kirloskar resigned from the Board of the Company as on April 23, 2014. Your Directors expressed deep sense of gratitude and wishes to place on record their appreciation of the valuable contribution made by him during his tenure.

MANAGEMENT DISCUSSIONS AND ANALYSIS

Industry Overview

Your Company serves various sectors viz. Oil and Gas, Infrastructure, Cement, Steel and Power, Food and Beverage and Railways. Over couple of years, the stagnation in the growth of the manufacturing sector has adversely impacted revenues of your company.

Both domestic and international factors have adversely impacted the Indian economy and the GDP growth for the year 2013-14 is around 5%. The Index of Industrial Production (IIP) showed no increase during April-January 2013-14 as compared to 7.8% during the year 2010-11. The GDP growth for the year 2014-15 is not expected to be any better than 2013-14. In fact this has resulted in a contraction in production of capital goods.

Segment Analysis

Your Company has two business segments – Compression Products/ Systems and Transmission Products.

1. Compression Products:

Your Company offers a wide range of products which include – Air, Gas and Refrigeration Compressors, Packages and Systems.

- a. **Performance:** During the year revenue for the Compression Product Segment was Rs 4,159 Million (Previous Year Rs 4,484 Million). These products primarily serve the Oil and Gas and Infrastructure industries. Over the last couple of years lower investments as well as regulatory challenges have affected the sales of the company this year. In spite of inflationary pressures, your Company has managed to contain material cost through various cost reduction programmes. To transform the operations, with Manufacturing Excellence as a goal, your Company has taken positive steps to implement these concepts and an empowered team has been constituted to champion this initiative across the organization. Looking at the changing technology trends, your Company is also focused on developing products for the future. Special efforts are being made to engage the best talent for in-house product development. Your Company continues to be the preferred choice of customers. The Customer Satisfaction Survey conducted by Nielsen Ltd. shows significant improvement in the Customer Satisfaction Index.
- b. **Opportunities, Threats and Concerns:** Your Company aims at strengthening its market position by widening its range of product offerings. Although the current economic environment for the year 2014-15 has been projected to be subdued. We expect the new Government to initiate steps for investment in this sector which will in turn benefit your Company from the year 2015-16 onwards. Projects announced by companies in the Oil and Gas sector are likely to materialize over the next three years. The Government of India has in its last budget committed to support the development of the cold chain infrastructure in India and we hope to see the Government taking positive steps in this direction in the latter part of this year. Your Company is also focused on developing export business in the Middle East and South East Asia region. Your Company has been approved by many International Consulting and Contracting companies and this will help us in garnering business in the coming years. With the focus on approvals which was started a couple of years ago, your Company is now receiving many enquiries from various Oil and Gas Companies in the Middle East and we can expect to see this being converted to orders from 2015-16 onwards.

Gas Compression and Refrigeration are highly specialized fields and talent availability specially in the area of design and technology development is a threat.

2. Transmission Products:

Your Company offers wide range of product which include – Railway Traction Gears, Wind Turbine Gearbox, Industrial Gearbox and Specialized Products.

- a. **Performance:** Delay in implementation of its modernization plans by the Indian Railways has affected the revenue of the Transmission Division this year. The Wind turbine market also collapsed during the year which resulted in very low sales for the wind turbine gear boxes from this Division. Over the last two years your Company has invested in modernizing its plant and this has helped in improving productivity and quality. Your Company is implementing a programme to achieve its goal of Manufacturing Excellence in operations. A dedicated cross functional team is in place to champion this initiative.

- b. Opportunities, Threats and Concerns:** Your Company will endeavour to consolidate its market position in Railway and Wind Segment. Industrial Gearbox market offers excellent opportunities for growth. Over the years your Company has developed capability to design, manufacture and sell customized industrial gearboxes and is now in the process of cementing our presence in this market. Cost continues to be under pressure with competition from both domestic and international players. There is still an uncertainty on the future demand pattern in the wind turbine market. Transmission Products segment also faces a stiff challenge in recruitment of trained engineering and manufacturing manpower.

Internal Control Systems and their Adequacy

Your Company has adequate internal control systems to ensure maintenance of proper accounting records, their accuracy and Accounting Standards, safeguarding of Company's assets and assessing its risk for insurance coverage.

Your Company has appointed Internal Auditors for review of Internal Control Systems. Detailed reports of the Internal Auditors are presented to the Audit Committee. Compliances to observations by the Internal Auditors are monitored by the management.
