Compact Robust Design

- Strategically designed compact size, fits easily in trucks.
- Flexible hoses connecting all oil and fuel lines.
- Hassle free maintenance with especially designed service doors.
- Reduced size with back to back Radiator and Oil Cooler.
- Hole Set coupling for efficient load transfer from engine to compressor.
- Sucker fan cooling - also blows the dust away from engine and compressor.

Safety is our Priority

- Micro-controlled shut down at High Air temperature.
- Automatic shut down at High engine water temperature.
- Starter protection unit for safety of engine starter.
- Efficient Sy-Klone type pre-cleaner to prevent dust particles from entering into the Compressor.
- Pre-cleaner for Engine suction to prevent dust particles from entering into the Engine.
- Engine low oil pressure shutdown.
- Safety valve in air oil separator tank.
